National Bike Summit 2010 March 9-11, 2010 Washington, D.C.

The National Bike Summit is this week, March 9-11 in Washington, D.C. Online registration is closed but you can register on-site at the National Bike Summit.

NATIONAL BIKE SUMMIT 2010 - BUILDING ON 10 YEARS OF PROGRESS

Bicycling has come a long way in the last 10 years. Our movement has grown larger and more effective; the number of people riding is growing in almost every community in the nation. We need more people on bikes more often, and the reasons just keep on growing. Whether it's obesity, health care, climate change, air quality, energy independence, traffic congestion, economic development or quality of life issues – bicycling has got to be part of the solution. In 2010, Congress and our Federal agencies will be setting national targets and goals for 2020. They will be writing transportation, climate, health care, natural resources and other critical pieces of legislation that will shape our future. Bicycling must be prominently featured in these important pieces of legislation, documents, funding streams and programs.

Ten years ago, the first National Bike Summit brought just over 100 advocates and industry leaders to Washington, D.C. – this year we need to be closer to 1,000 participants to make a strong impact. Join us and speak up for bicycling; discover how your voice can truly be heard. Help the League of American Bicyclists celebrate 10 years of progress, and help us propel into a new decade of the bicycle!
